- Increases relaxation

100% NATURAL AND NON-INVASIVE
SUITABLE FOR ALL SKIN TYPES
EFFECTIVE AND NON-INVASIVE

The bodies of pregnant women often undergo changes (water retention, heavy legs, loose stomach skin, stretch marks & pregnancy fatigue).

These changes can be affected by other factors like age, weight, lifestyle and genetics.

icoone® is able to improve psychophysical well-being by providing a sensation of overall relaxation.

Thanks to its delicate and non-invasive action, icoone® offers future and new mothers the experience of an effective treatment.

*icoone® can only be used after the 3rd month of pregnancy, by avoiding the abdomen and lumbar area.
